# What is a computer?

a computer is...

a device

a computer is...

a device

that accepts data or input

a computer is...

a device  
that accepts data or input  
and **processes** it in some way

a computer is...

a device

that accepts data or input

and processes it in some way

to automatically produce

a computer is...

a device  
that accepts data or input  
and processes it in some way  
to automatically produce  
a result

a computer is...

a device that accepts data or input and processes  
it in some way to automatically produce a result

# Hardware

Microcomputadora  
Firma Apple Corp.  
Sociedad Apple Inc.  
UA, circa 1984

# Boot Process

Wakes up all the hardware components in the computer.

# Power Supply

Manages the electric voltage that is sent to the hardware components.

# Motherboard

Main circuit board in which other hardware components connect to.
